SECOND LANGUAGE

Passing Score on Graduation Proficiency Test (GPT)
The GPT asks you to demonstrate your ability to speak, read, understand and write a language other than English.

Students usually pass after completing the equivalent of 4 semesters (2 years) of college-level language courses.
If you have done work in a second language, continue in that language at the U and take courses consecutive semesters.

Guaranteed Seats to keep you on track!
If you can’t start a language in the Fall, you will be able to register for a seat in a Spring 2004 language course during orientation.
