SECOND LANGUAGE REQUIREMENT

Passing the Graduation Proficiency Test (GPT)
You must demonstrate your ability to understand a written and spoken language other than English by passing the GPT.

Although not based on “seat time”, students usually pass the GPT after completing the equivalent of 4 semesters (2 years) of college-level language courses.
We encourage you to continue in the language that you began in high school, but there are 24 other languages besides Spanish to choose from.

Guaranteed Seats to keep you on track!
If you can’t start a language in the Fall, you will be able to register for a language course for Spring 2004 during orientation.
